## **One phone solution for Nokia mobile telephones**

***Professional Dual Mode client software "OptiMobile Uniphone" is now available for Symbian series 60 at [Mobile2Day.de](http://Mobile2Day.de) and [SymbianGear.com](http://SymbianGear.com)***

**MUNICH and STOCKHOLM, Oct. 27th 2008** – PocketGear Germany and Optimobile AB today announce the general availability of OptiMobile's client software UniPhone for a large range of Nokia mobile telephones. The software can be purchased via instant download at 25€ and is available through the online-portal [www.mobile2day.de](http://www.mobile2day.de) "Home of PDAs and Smartphones" and [www.SymbianGear.com](http://www.SymbianGear.com) "Giving Live to your Symbian device".

The UniPhone client software enables mobile telephone users to easily make calls via broadband Internet connections (VoIP over WLAN) as well as via traditional cellular networks. Information regarding contacts, call logs, user settings are available to the user in one unified interface.

With the UniPhone installed on the Nokia mobile phone the user will benefit from;

- Attractive tariffs when calling via WLAN
- Call set up from existing phone book
- Automatic selection between cellular and WLAN access
- Unified user interface adopting to native interface of the Nokia handset
- State of art sound quality

Guidelines for VoIP beginner's can be found on [www.optimobile.se](http://www.optimobile.se)  
UniPhone is suitable for individuals as well as for corporations of all sizes.

OptiMobile UniPhone with dual mode functionality is available for Nokia mobile telephones running Symbian series 60. Examples of currently supported models are Nokia E51, E61, E65, N78, N82, N85, N95 and N96. OptiMobile intends to make UniPhone available for all new Nokia mobile telephones running Symbian series 60. OptiMobile UniPhone (SIP VoIP client) for Sony Ericsson mobile telephones running Symbian UIQ are also available via PocketGear on-line portals.

### **About Optimobile:**

OptiMobile is a leader of unified mobile communications solutions, in particular within the field of mobile voice solutions.
